

SOIL MINERAL NITROGEN FIELD FORM

Conditions of Acceptance

1. All samples submitted for analysis must be accompanied by a fully completed field form.
2. All compost samples must be indelibly labelled and all loose samples should be contained in strong plastic bags and sealed.
3. Any sample collected from the growing medium or soil improver shall comprise a minimum of 25 representative sub-samples taken from the whole of the material.
4. For physical and chemical analysis the larger the sample the better but where limiting factors dictate an absolute minimum is 1 litre.
5. All samples submitted must conform to the criteria set out in conditions 1 to 4 above.
6. All testing undertaken by Anglian Soil Analysis Limited will be carried out in accordance with the Anglian Soil Analysis Limited testing protocol.
7. Whilst every precaution has been taken to ensure the accuracy of testing undertaken by Anglian Soil Analysis Limited no liability can be accepted for any loss or damage arising whether or not there has been any negligence in the sampling, the analysis or preparation of the test results.
8. All analyses and subsequent results undertaken by Anglian Soil Analysis Limited are given on the understanding that the sampler has read and abided by conditions 1 to 4 above.
9. Responsibility for the interpretation of these results rest with the client. No liability (whether express or implied) is accepted on the part of Anglian Soil Analysis Limited.
10. I acknowledge that I have read the conditions of acceptance and testing protocol referred to above and agree to be bound by their terms.
